GUVERNUL ROMÂNIEI

„Crearea unui mecanism care să asigure o mai bună monitorizare și control al ajutoarelor de stat acordate în România”,  
Cod SMIS 50633

Proiect co-finanțat din Fondul European de Dezvoltare Regională prin POAT 2007-2013

Starting with the 1<sup>st</sup> of March 2014, the Competition Council is implementing the Project **“A new mechanism for a better monitoring and control of state aid granted in Romania”** SMIS code 50633. The project is co-financed through European Regional Development Fund, on the basis of the contract with the Ministry of European Funds – Management Authority for the Technical Assistance Operational Program and shall be implemented in Bucharest for a period of 22 months.

The total value of the project is of lei 8,141,141, eligible value of lei 7,890,615 out of which lei 5,917,961.25 being financed through European Regional Development Fund.

**The general objective** of the project is a better enforcement of the EU law on state aid both for national and communitarian sources.

The project aims at creating, developing and exploitation of an interactive data base for the de minimis and state aid granted in Romania.

Within the project, the following activities shall be performed:

- Assurance of the resources for implementing, management and project control;
- Creating an interactive system of de minimis/state aid measures in Romania;
- Elaborating and spreading informing materials;
- Organizing a Conference for the launching of interactive system and data base.

At the end of the project the following results shall be achieved:

1. Interactive system and data base with the following characteristics:

- ex-ante verification of the eligibility of the potential state aid/ de minimis beneficiaries
- the possibility to identify and take the necessary remedy in case of breaches of eu law on state aid;
- reports on de minimis/state aid measures implemented, the financing granted, corrections of the contracts, etc.

2. Proposal for modification of the national law on state aid procedures as far as it regards the interactive system.

3. Internal procedures for the Competition Council for the implementation of the interactive system.

4. Equipment, licenses, supplies bought within the project for creating and exploitation of the data base and for the project management.

5. Elaborating of the Manual for the use of interactive system and spreading it to 500 users.

Cod SMIS 50633

Proiect co-finanțat din Fondul European de Dezvoltare Regională prin POAT 2007-2013

6. Elaborating of the administration manual of the interactive system for the use of the Competition Council's experts.
7. Organizing a Conference for the launching of interactive system and data base.
8. 3 press releases during the implementation of the project
9. Acquired informing and publicity materials.

The Competition Council's experts shall be the administrators of the data base and the users shall be: management authorities, intermediate bodies, central and local authorities and any other authorities involved in monitoring and control of state aid and structural funds.

The project shall answer to the ex-ante conditionality on state aid that Romania has to fulfill for the implementation of the structural funds for the period 2014-2020.
